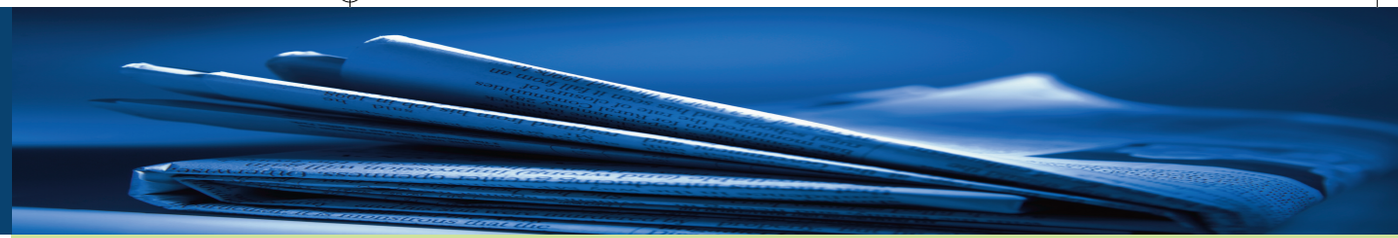
Historical Education Series & Group Discussion

Intellectual Stimulation

A mind is a terrible thing to waste...at any age



Intellectual Stimulation

Historical Education Presentations

Group Discussion - Current Events

A Commitment To Those Who Deserve the Best!

We bring continued quality of life and intellectual stimulation to senior residents in independent and assisted living care environments. Historical Education Presentation or Group Discussion is designed for seniors who have always enjoyed history and the world around them, however have eyesight, ambulatory or age issues that make access to such information difficult or impossible.

Historical Education Series

HRG offers monthly Historical Education Presentations that include interesting people such as the iconic French fashion designer and business executive Coco Chanel or such events as John F. Kennedy and the Cuban Missile Crisis, the most dangerous 13 days in our nation's history.

Historical Education presentations involve such special subjects and people as:

- 1950s, 1960s, 1970s….
- The Cuban Missile Crisis
- Interesting People, Coco Chanel, Albert Einstein, Julia Child
- The American Civil War
- WWII, Pearl Harbor, D-Day
- American Presidents, Lincoln, Eisenhower, The Roosevelt's, Nixon
- Electronic Media - History of Radio and TV
- The History of Rock & Roll
- The Prohibition Years
- Women's Rights

A typical presentation is 60-80 minutes and involves use of PowerPoint enhanced graphics as well as interactive web based media. Time is allowed for questions and discussion.

The Huntington Reading Group

Group Discussion

On a weekly basis, the HRG Facilitator introduces an information topic. The Facilitator will present the material and at the same time encourage an interactive discussion and sharing of information. We think of this as "Priming the Intellectual Pump" of the senior. Discussion content may be current events or select topics that cater to the background and tastes of seniors. Importantly, our Facilitator understands and appreciates the life experience of the seniors.

Group Discussion starts with a brief reading from electronic media, newspaper current events or key stories that pertain to:

- National events
- International events
- Politics
- Sports
- History
- Religion
- Editorials
- Book Reviews
- Science and Technology
- Arts & Entertainment
- Travel
- Broadway Plays

Maintaining Quality of Life

Group Discussion sessions are typically 60 minutes. Our Facilitators will encourage interaction and shared experience between the seniors which promotes overall well being.

A key value to the program is the Feedback Mechanism. We will let you know of your senior's level of interest and interaction.
